COVID 19 PROCEDURES

Starting March 23 we will not be allowing clients in our building. Please call 864-222-2188 when you arrive and we will check you in over the phone and then a technician will come to your car to get your pet. **All cats must be in a carrier, if you do not have one please inform the receptionist at check in and we will bring one of ours to your car. Once we have your pet inside we will call and get a patient history, after the doctor has examined your pet they will call to go over a treatment plan.** You will be asked to pay before we bring your pet back to your car. You can pay over the phone with a card or we will come to your car if you have cash. Thank you for your patience and understanding as we try to continue to care for your furry babies and keep everyone as safe as possible.
